Please oppose the reject the NAB'S petition 04-160 and please support XM Satellite's ability to provide all kinds of programing. I pay for this service and find this service a great value and asset. I enjoy its versatility at all times 24/7. The traffic and weather information is a plus and essential here in the heavy traffic areas and to plan for upcoming events. I cannot stress to you how important your support of this will mean. Keep us on the go with XM Freedom!Thanks!!!
